

Ballet Activity Pack!

www.resourcesfordanceteachers.com

Welcome to the second Ballet Activity Pack - lots of fun filled ballet activities perfect for keeping little hands busy backstage at recital, at dance camps or to share online during the 2020 studio shutdowns. If you would like to share these as individual sheets these can be downloaded on google drive by clicking [here](#). Please note there are two versions of the spot the difference - they are the same but just with a different orientation. The landscape version has slightly larger ballerinas.

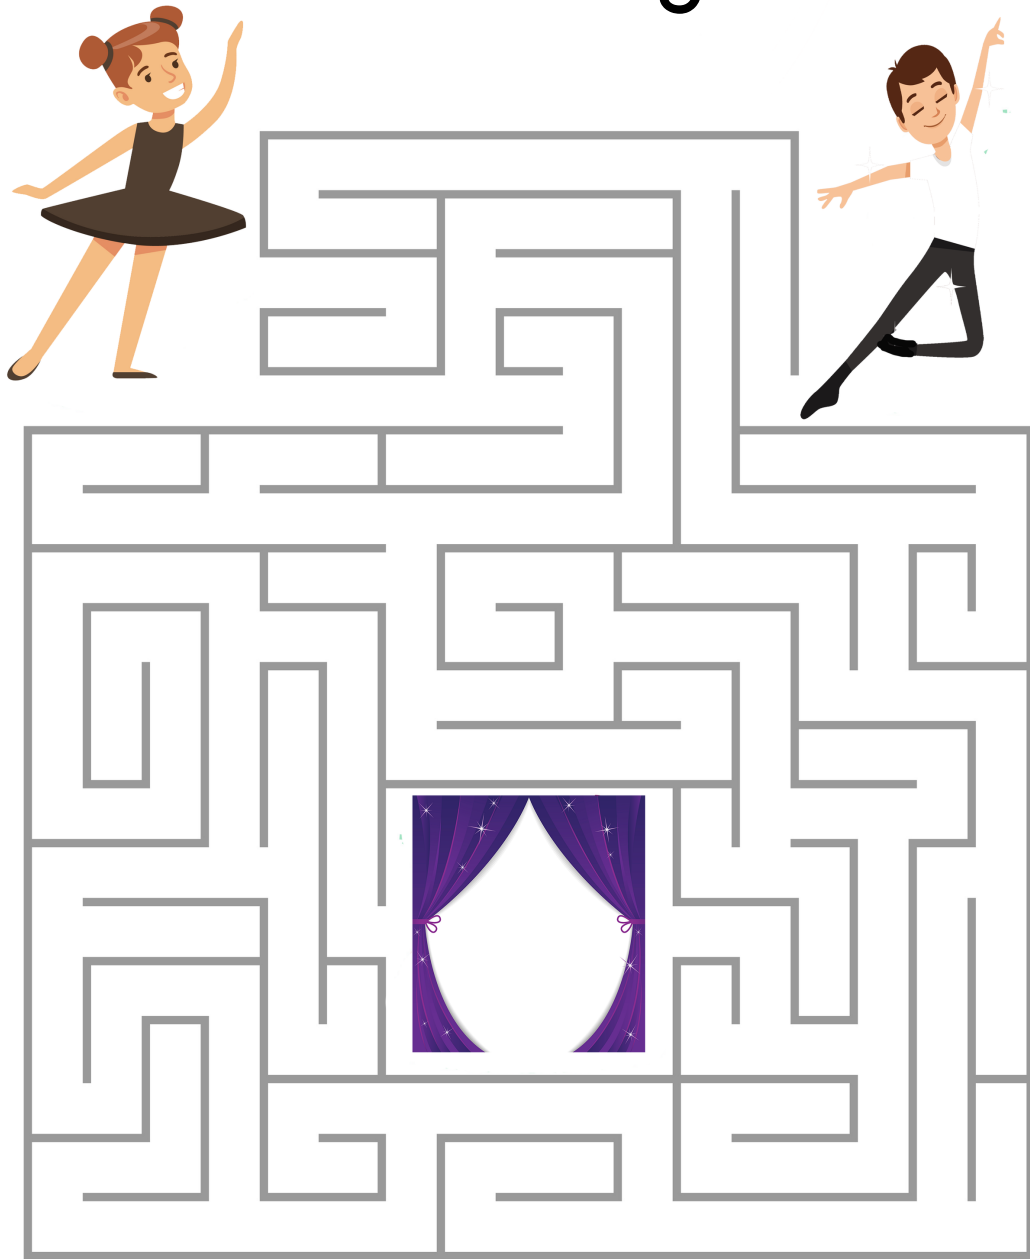

There are more Ballet Activity packs, theory packs and growth mindset for dance packs available [in store](#).
